Award winning, enthusiastic and creative Video, VFX, Motion Graphics, Audio, Post Production specialist with exceptional academic achievement and commercial experience. Client focused with an aptitude for organisation and a proven track record of co-ordinating and delivering consistent, quality content within budget to meet tight deadlines. Possessing both strong technical and communication skills. Looking to apply knowledge and experience to a varied and challenging role.

Key Skills

- Digital All-Rounder - Video, Animation and audio production.
- Digital Multimedia production software. Adobe Creative Suite, Avid, Premiere Pro, After Effects.
- Developing and managing diverse projects from pre-planning to post-production and delivery.

Freelance & Contract Work

Australian Unity

November 2013 - Present

Digital Production & Design

Working with the Digital Marketing team to create the quarterly “insights” videos for distribution to internal and external clients. These are an important part of establishing the Australian Unity brand in the minds of investors and advisers.

- Filming and managing the interviews
- Creating motion graphics intro and outro
- Editing
- Colour Correction
- Audio production

Key Achievements

- Dramatically improve production value of AU Video productions
- Met all filming editing and post production deadlines

In addition I am involved in ad hoc digital requirements such as animation production and conference video editing and production. This involves liaison with multiple departments to ensure the media meet corporate guidelines along with careful stakeholder management.
